

Reinventing the art of storage

Precious wood, pure lines, luxurious details ...: the **MajorDomo** hangers and coat racks reconnect with a certain idea of the art of living. Daily object, the hanger becomes a full-art design object and exposes itself.

Shaped by the craftsman's hand in a solid and durable ash wood, MajorDomo is available in natural wood or painted in white, black, amaranth red or in two colors for a touch of originality.

The discrete 24-carat gold-plated elements, which connect the two movable parts of the hanger, contrast elegantly with the simplicity of the wood.

A high-end artisan product combining Italian know-how and Swiss precision

With its soft lines, the hanger was specially designed to hang the clothes easily, without risk of damaging the fabrics. Equipped with hooks, it can easily be fixed to the walls of the room or the bathroom in a few minutes. MajorDomo is also available in a luxury 24k gold plated version (Deluxe collection). The requirement of excellence has led its creator Salvatore Milazzo to imagine it in plated pink gold, white gold, yellow gold or champagne versions to match all interiors. Plated with a real gold leaf worked for a textured rendering, the Deluxe hanger will seduce all the lovers of rare and exceptional objects.

The Deluxe version of Canadian cedar wood is ideal for refreshing the linen and delicately perfuming it.

Composed of two panels of solid ash wood and two hangers, the MajorDomo coat racks rely on a design of an elegant sobriety.

The MajorDomo collection

MajorDomo is available in four versions and seven colors.

MD 1.0 : an assortment of two hangers and a trouser hanger

MD 2.0 : the hanger by the unit

MD 3.0 : a collection dedicated to travel. Fitted with a plexiglass hook, hangers can also be used in closets.

MD 4.0. : a combo of two hangers and 2 x 3 vertical wooden panels of 60x30 cm equipped with their own adapters.

Eco-friendly hangers

Certified FSC, wood comes from responsibly managed forests. The paints used are lead-free. The hangers are shipped in recycled packaging. To avoid the waste of paper, Fabrica sends by email the assembly instructions.
